

The child from the green future

OŠ „Matija Gubec”, Cernik - Croatia

It's a sunny day. The boy called Tom is sitting in the middle of a meadow and is looking at the blue sky. He's looking and he is asking himself: „Where did it come from? How old is it? It seems I'll have to find out myself!“ He set on his flying scooter and went home.

Tom took the tablet and wanted to look for an e-book about the sky but he found nothing. Now, there is only one option left: to take his dad's old time machine and travel to the beginning of everything to see where the sky came from. „I am already eight,“ he thought „I can manage with this old time machine on my own. I can do that!“ And, a moment later he was sitting next to his own robot in a time machine.

He started the engines, but he pressed the wrong buttons and came out in the 2020. „Where am I?“ he wondered „This has to be a mistake!“ Then he noticed the time machine: „No, this is not happening! It is broken!“ Only then he realized that he is in front of a block of flats and there was a little girl watching him through the window.

He was standing confused and scared when the same girl stood in front of him. After few moments she started talking: „Hi, what’s your name? And what is that with you?“ He answered: „Hello! I’m Tom and this is my robot. And who are you?“ „My name is Lily. What is broken thing behind you?“ „This is my time machine! I wanted to find an answer to my question, but I got stuck here.“ „And what is question about?“, Lily asked. „My question is: where did the sky come from?“, Tom said. „I’m not sure too, but we can find out together!“

The next day Lily's friends came. She introduced them to Tom, the boy from the future. Tom started talking about his city, his home and about beautiful meadow on which he is spending his free time on. They listened to him carefully. Time machine was fixed and Tom had to go home.

Tom was happy because he made some new friends even though he didn't find out the answer to his question about the sky. In the end his new friends gave him a nickname: The Child From The Green Future. When he returned home, his mum asked him where he was for the last hour. He thought: „Are you joking? I was gone for a day!”
